

Frauds Spies and Lies – and How to Defeat Them

Now available via electronic delivery from Management Analytics

Author's prefix from 2018:

If you want to defeat the Republicans and ultimately Donald Trump in the upcoming elections, the best path to doing it is to read and apply the lessons of this book.

The first edition of this book was a smash hit – among the fraudsters. By my records, scores of republican leaders downloaded the book when it was free, applied the lessons learned, and got Donald Trump elected President of the United States. This POTUS – the “Traitor Trump” – “Don the Con” - and the disloyal Republican leadership (according to the POTUS who was against them before he was for them) followed the lessons of the “Frauds Spies and Lies” part of the book, but the democrats, who never read the “How to Defeat Them” part failed to pay attention.

But this should be over now – or if it isn't, our democracy will be over before long. In any case, what was free, is now valuable – and you need to pay to decide it's worth knowing. That's lesson 1 in influence operations. The more it costs, the more it seems to be worth. So...
