

## About the Book

We are at war and we don't even know it? That's right. All of us, the people of the World, are at war – information war – and most of us don't even realize it.

In his latest book, Dr. Fred Cohen discusses an enormous breadth of ideas and notions surrounding information warfare and describes how and why the World is at war and what all of us can do to keep ourselves safe.

The rich and powerful, criminal gangs, terrorists, industry, business, the media, news makers and breakers, propagandists, politicians, countries, religious groups, scientists, and just about anyone else you can identify is part of the global strategic information war, has been for some time, and will be for some time to come. The longest war is and will continue to be the information war, and it is intensifying around the world more than it has in a long time. So how can the people of the world resolve this vast conflict? You'll have to read the book to find out!

Here's what some of our early reviewers said:

*"This book is one of the most comprehensive books to ever be written on this fascinating subject"*

*"Wow! The breadth and scope of this book is amazing."*

*"This book covers more ground in less space than I ever imagined."*

## About the Author

Fred Cohen is one of the best known Information warfare strategists in the world today. For more information on Dr. Cohen, visit his Web site at <http://all.net/> or contact him via email.
